This is also the place for macro photographs (although a macro image of a flower might equally go into the Flowers category). Examples include: detail of a knot, a lock, or an abstract close-up - anything as long as it is a tight composition of a detail. Macro examples include flowers, insects, stamps, ice crystals, etc.

**Dominant Color:** Photos with a dominant color. The dominant element in the image must be a specific color, such as red, yellow, blue, white, black, white, green, etc. Black and White photos, duotones, are excluded from this category.

**Landscape:** Scenes of landscapes, seascapes, skiescapes (sunsets, clouds, etc) or underwater scenes.

**Plant/Flora:** Any photo that focuses on the plant or flower structure and not on a scene or landscape.

**Marine/Aquatics:** Photos of any living organism in bodies of either fresh or ocean (salt) water. Ex: Fish, stingrays, shipwrecks, whales, starfish, etc.

**Elements of Design:** Images use of graphic elements of design. Photos that showcase line, shape, pattern, form, texture, perspective, etc. Photo can consist of any subject matter. Category is not for graphic illustrations made in commercial programs (i.e. Adobe Illustrator®) nor for extreme digital creations. Ex: Perspective, Line, Pattern.

**Night Photography:** Photos taken outdoors between dusk and dawn but does not include dusk and dawn. Generally these photos are achieved by using artificial light or using a long exposure. This category can include any subject as the focus should be on the skill and technique used to acquire the photograph. Ex: Buildings/structures, animals, plant/flora, people, etc.

**Vehicles:** Photos taken of types of transportation ie., Cars, trucks, trailers, planes, trains, motorcycles, etc.

**Storyboard:** A storyboard is one digital entry (one photo) that contains three smaller images and minimal text that tells a story. The story should be easily understood by the viewer. This entry is one single file. Example below:

## AGRICULTURE DIVISION SPECIAL RULES

### ANIMAL HEALTH ISSUES POLICY & PROCEDURES:

Animals needing care upon and after arrival on the Bell County Expo grounds are subject to this policy and procedures at all times.

The official Show Veterinarian is designated annually by the Bell County Extension Office County Coordinator who will then maintain a memorandum of agreement with said Official Veterinarian. The animal care site on the grounds will be determined by show officials. This location is for the convenience of exhibitors, the show officials and for the quality assurance issues impacting the well being of the animal and the ultimate end user.

The Bell County Youth Fair Association and the Bell County Extension Office will arrange to have an official veterinarian on call and available; however, they do not donate their services or medications. Fees should be discussed before treatment. All medication administered during the livestock show must be Administered only by the Official Veterinarian and a written medication record must be filed with the Show officials by the Official Veterinarian.

Exhibitors, parents, volunteers and supervisors with questions regarding animal health issues and/or the need for medications should consult with the Bell County Youth Fair General Superintendents and/or the Extension Designee Ex-Officio to the Fair. These officials will then contact the Bell County Youth Fair Official Veterinarian upon the request and/or the needs of the animal. This can be prior to competition and/or after competition is complete.

Animals receiving performance enhancing drugs per the official veterinarian action (i.e. including, but not limited to, steroids, diuretics, anti-inflammatory, tranquilizers and pain killers) in this manner may be deemed ineligible for competition. The Official Show Veterinarian may remove any animal from competition if the health, safety, or welfare of the animal is in question.

At no time during the time the animal is on the grounds can it be administered any medication by the Exhibitor, Volunteer, Supervisor, and other Veterinarians not designated as Official by the Bell County Youth Fair and Bell County Extension Officials.

This policy and procedure is in place to protect the end user, individual and/or company purchasing the floor animals, and to insure the USDA Meat Quality Assurance Standards per The Wholesome Meat Act as well as assuring fair play for all exhibitors. Proper animal husbandry and animal care standards expected by the participants and attendees will be maintained at all times.

**RULE REQUIREMENT:** Unless specifically exempted in special rules, all entries and awards are subject to the General Rules. Records may be required by show officials as proof of ownership.

**HEALTH RULE:** Special care will be taken that animals having diseases of any nature will not be admitted into the show at any time. Unhealed animals from castration, dehorning, docking, or other operations shall be barred from the show. Exhibitors must comply with all rules and regulations set forth by the Texas Animal Health Commission.

**DRUGS:** All drugs must be administered by a veterinarian. All market animals may be subject to drug tests.

**UNETHICAL FITTING RULE:** The act of artificially filling animals internally, which would include stomach pumping, drench tubes, or any other method per os (by esophagus), is prohibited.

**WHOLESOME MEAT ACT:** The USDA Wholesome Meat Act applies to all market livestock. Only animals eligible for immediate slaughter may be brought onto the grounds and exhibited.

- (a) Animals must be in good health and carcasses free of drug or chemical residues.
- (b) Drug label directions for use and withdrawal periods must be followed.
- (c) If drug or chemical residues are found in tissue of carcasses, the entire carcass may be condemned.

Bell County Youth Fair and Livestock Show, Inc. will in no way be liable or responsible for the condition of carcasses or the sale price of the animal. In such cases, the exhibitor forfeits all rights to any and all proceeds including: Auction Price, Scholarships, Premium Awards, Market (Floor) Price and Special Awards.

As breeding animals are not entering the food chain, the USDA Wholesome Meat Act does not apply to these animals; however, breeding animals will be closely screened for any performance enhancing compounds. This includes, but is not limited to steroids, diuretics and pain killers.

**JUDGING:** Exhibitors are responsible for knowing the times at which their animals will be judged. Any animal not presented promptly will be ruled ineligible and barred from competition in the class. No complaint or protest on the grounds that the judge overlooked animals will be considered.

Some recipes for divinity candy specify ingredients such as peppermint, cinnamon, chocolate or candied fruits for flavoring.

**Fudge:** A thick, firm, smooth candy that is set-up in a pan and cut into squares. Candy can be cooked or uncooked. Degree of difficulty increases with cooked recipes. Ingredients usually include butter or margarine, fat derived from chocolate, milk, and sugar. Other flavor variations might include peanut butter, marshmallow, white chocolate, etc. Nuts may be added.

**Brittles and Other Hard Candies:** Breaks with sharp edges rather than bends, candy mass is somewhat crunchy. These include brittles, lollypops. No peppermint bark.

**Brittle:** A candy made from sugar that has been cooked to a high temperature. Nuts are a common addition to brittles. The nuts may be added to the hot sugar and the mixture is poured out in a thin layer. Baking soda may be added to form a light texture. The resulting candy is hard and snaps easily, thus the term "brittle." This class includes nut brittles, lollypops and other hard candy.

**Toffee:** A candy formed by boiling a sugar mixture to a high temperature, normally soft crack or hard-crack. Toffee normally has a hard, slightly chewy texture and a rich taste that is gained by adding butter to the sugar mixture. Other additions may include nuts and chocolate. Cracker toffee is not acceptable.

**Pressed Cookies:** Dough is forced through a cookie press or pastry tube creating uniformly shaped cookies. Note: Dough may need to be chilled but these are not refrigerator cookies.

If a hog loses its ear tag between validation and show time, the owner must contact the County Validation Committee to re-tag the hog. State validation will be honored by the Bell County Youth Fair for breeding gilts. Ear notch numbers must match validation card ear notches or animal will be disqualified and cannot show.

**High-Acid Foods**—These foods have naturally high levels of acid or have a sufficient amount of acid added to them. Bottled lemon juice, citric acid or vinegar labeled 5 percent acidity are sometimes added to recipes to increase acidity. Foods in this category must have a pH of 4.6 or lower. The boiling-water method of processing is adequate for high-acid foods. Generally, all fruits and soft spreads are classified as high-acid foods.

Figs and tomatoes require the addition of an acid so they may be safely canned using the boiling –water method. Fermented foods, such as sauerkraut and brined pickles, and foods to which a sufficient amount of vinegar is added are also treated as high-acid foods. Some recipes may call for high-acid and low-acid ingredients but still be classified as a high-acid product; these recipes must have a pH level of 4.6 or lower.

**Low-Acid Foods**—These foods have very little natural acid. Vegetables, meats, poultry and seafood's are in the low-acid group. Soups, stews, meat sauces and other recipes which contain a combination of high-acid and low-acid ingredients, yet remain with a pH level higher than 4.6, must be processed as a low-acid product.
