Application Deadline: Friday, July 16, 2007

\* Limited to first 20 teachers! \*

We are planning a special Master Gardener training class this summer designed for teachers to be affiliated with the Texas Junior Master Gardener Program.

JMG engages children in novel, "hands-on" group and individual learning experiences that provide a love of gardening, develop an appreciation for the environment, and cultivate the mind.

- independent and group learning experiences
- life/skill and career exploration
- service learning opportunities for youth
- correlation to state teaching standards

What is it?

Students use what they have learned to be of service to others.

Examples of service projects initiated by JMG groups include: growing produce for donation to food banks, community beautification projects, and class businesses generating funds for local charities.

For an application, call the Texas Cooperative Extension Bexar County office at 467-6575. Or, visit the Bexar County Master Gardeners website:
