113	Avila	Esmeralda	San Benito	0	1	0	1	About 12 trees
114	Platas	Jorge	Harlingen	0	1	0	0	
115	Jowell	Doy	Rio Hondo	0	1	0	0	
116	Platas	Jorge	La Feria	0	1	0	0	
117	Benet	J. Peter	San Juan - Home Ph:(956) 787-76	0	0	1	0	
118	Garza	Manuel	Alamo	1	1	1	0	Mr. Garza lives between Val Verde and Tower Rd. He has about 17 to 18 citrus trees at his property. There is person either from Citrus Center or USDA that checks his trees every 6 months and was told that his trees are negative for Citrus Psyllids. No other information has been given other than his lime tree having a bug. He also mentioned that the person visiting his property placed little pink flags on his trees. He is wanting more information regarding Citrus Greening.
119	Gentry	John	Brownsville	0	0	1	0	Needs to know what to use to treat the trees. A name of the pesticide.
120	Saldaña	Adela	Weslaco	0	1	1	0	Does Not live within the 5 Mile Quarantine Radius.Has left samples as per Dr. Juan Anciso requestYou may reach her on her cell phone# 956-975-9349
121	Hinojosa	Fred	Mercedes	0	1	1	0	Needs information, regarding his trees. Watched in the news regarding the Citrus Greening. Would like someone to go by and check his trees. He may be reached on his cell phone: 956-463-9571 Doesn't live within the 5 mile quarantine area.
122	Jaurequi	Jesus	Edinburg	0	0	0	0	Mr. Jaurequi is concerned regarding an orchard close to his home. Orchard does not belong to him, but is concerned that they are harvesting bad citrus. He mentioned it is located in Edinburg on Monte Cristo Rd and Monmack. Next to the Magic Valley Electric Company Power plant.
123	Arcaute	Sylvia	San Juan	0	1	1	0	Ms. Arcaute mentioned that her residence used to be a citrus orchard and currently has some citrus trees on her property. She would like to know more information. Please call.
124	Garcia	Noe	San Juan	0	0	0	0	Did not specify why, but repeated that he sprayed miracle on them. He also mentioned that he went to a store and spoke with a worker who recommended a Hi Yield 38-Plus product. He was concerned that the product would kill his tree or would not be right product for him. (He has a citrus tree in his backyard)

125	Argo	Dennis	Weslaco	0		1	0	0	I have a grapefruit tree that does not bear any fruit - 5 fruit the first year (5 years ago). Since then - nothing. Note: Dennis does not live within the 5-mile quarantine radius.
126	Taray	John		0		0	1	0	Mr. Taray has mandarin trees by his home. He brought in samples of his tree for a specialist to check it out. He has treated his trees for Mites in the past, but never for Citrus psyllids. He lives outside of the 5 mile quarantine radius.
127	Villareal	Julio	Harlingen	0		0	0	0	His dad's citrus trees - they do not want to treat or do anything without talking to someone first.
128	Medrano	Angie		0		0	1	0	Mrs. Medrano never knew about Citrus Greening. She would like information on how to keep her trees healthy. She has about 30 trees in her property. She distributes the fruit to immediate family only.
129	Pederson	Chris	McAllen	0		0	1	0	
130	Hernandez	Carlos	Brownsville (Cell: 956-542-1744)	0		0	1	0	No - Does not live within the 5 -mile quarantine radius
131	Garcia	Minerva	Weslaco	1	with dish soap	0	0	0	
132	Mitchell	Rosmary	La Feria	0		1	1	0	Ms. Mitchell would like to know when her trees are supposed to be sprayed and a contact name for someone who sprays.
133	Knutson	Robert	Weslaco	0		0	1	0	Mr. Knutson would like to know what is going on with his Grapefruit tree, they went and bought a tree two weeks ago and the leaves have fallen off. Some leaves are green and others have brown spots sometimes a third of the leaf is brown. Is it something in the soil? What could be wrong with it? Are there any treatments that are recommended? He mentioned that he went out yesterday to inspect the tree and tapped on it and the leaves started falling off.
Number of people that participated in this survey				Number of people that treated their trees for Asian Citrus Psyllids?	Didn't know they "NEEDED" to treat their trees:	Didn't know "How" to treat their trees:	Could "Not Afford" to treat their trees:
