Chapter 12 - Lesson 1 Prevention

Activities

1. Observe livestock maintained under improper nutrition and husbandry management practices. Grade findings of their health status, nutritional conditions, and husbandry conditions, as good or bad.
2. Observe groups of animals and identify preventive measures targeted toward epidemiology of infectious diseases.

Health Status		
	Good	Bad
Appetite		
Body Condition		
Attitude		
Behavior		
Nutritional Condition		
Water		
Forages		
Supplements		
Husbandry Condition		
Space		
Shelter		
Sanitation		

Preventive Measures					
	Cattle Feedlot	Dog Show	Horse Stable	Dairy Barn	Swine Barn
Testing					
Isolation					
Barriers					
Disinfection					
Vaccination					
Antibiotics
