Veterinary Science

Preparatory Training for the Veterinary Assistant

By Floron C. Faries, Jr., DVM, MS

Profusely illustrated with color photographs, this comprehensive new book introduces secondary school students to veterinary science and animal industries. Students completing this course and job apprenticeship will become eligible for certification as a Veterinary Assistant. Subjects covered in the book include:

- Patient and Practice Management
- Human and Animal Health
- Animal Nutrition
- Handling and Restraining Animals
- Anatomy and Physiology of Animals
- Laboratory Aids and Examinations
- Infectious and Non-Infectious Diseases
- Principles and Methods of Disease Control
- Sanitation
- Regulatory Veterinary Medicine
- Common Surgical Procedures
- Production Practices
- Animal Management During Emergencies
- Laws Relating to Veterinary Medicine
