

Class #1 -Digital Cameras

Erica is about to have her 2nd child and their digital camera is on the fritz. Since she will have 2 children, they sometimes are hard to take pictures of them not blinking and smiling so some type of detection would be nice for both blinking and smiling. She also wants to take movies to send to grandparents of major events. She has received \$150 in gift money from baby showers to purchase her camera. Please help her find the best camera available.
