## Cell Phones Scenario

Anthony is looking to buy a prepaid cell phone to use during the day because his old phone broke after he dropped it. Anthony only has \$50.00 to spend on the phone. Anthony wants his cell phone to increase the minutes he buys each month. Anthony would like to have Bluetooth, text messaging, mobile web access, picture messaging, and an alarm clock. Anthony has a lot of friends in his contacts so he would need a phone that can hold over 300 contacts. Anthony would also like to have a long battery life, but he does not talk on the phone much. The most important thing Anthony needs is to be able to see how much airtime he has used and how much is left. Please help Anthony find the right prepaid cell phone.

## Cell Phones Placing & Reasons

Placing: 4 – 3 – 2 – 1

### #4- Samsung T105G

- Double Minutes for Life
- Text/Picture Messaging
- Mobile Web
- Phone Book = 500 entries
- Battery Life: 7 hours talk time, 14.5 days standby
- Shows airtime used & how much is left
- Non-flip or touch phone
- \$9.99

I placed 4 first because 4 was the least expensive phone at \$9.99. Also 4 contained all the requirements that Anthony asked for such as, text and picture messaging, Bluetooth, a large phone book memory, long battery life of 7 hours talk time and 14.5 days standby. 4 also included the showing of the airtime used and how much airtime was left.

### #3- LG 500G

- Double Minutes for Life
- Mobile Web
- Bluetooth
- Camera
- Text/Picture Messaging
- QWERTY Keyboard
- Phone book = 1,000 entries
- Battery life: 5 hours talk time, 9 days standby
- Shows airtime used & how much is left
- \$19.99

I placed 3 second because granted 3 has more phone book entries at 1,000, I criticize that 3 is more expensive at \$19.99 and it had a short battery life of 5 hours talk time and 9 days standby.

### #2- LG 800G

- Triple Minutes for Life
- Touch Screen
- Mobile Web

- Bluetooth
- Camera
- Text/Picture Messaging
- Phone book = 1,000 entries
- Battery Life: 4 hours talk time, 8 days standby
- Shows airtime used & how much is left
- \$49.99

I placed 2 third because 2 had the least amount of battery life at 4 hours talk time and 8 days standby. 2 also was the most expensive cell phone at \$49.99, which was right at Anthony's budget of \$50.00.

#### #1- Samsung T245G

- Double Minutes for Life
- Bluetooth
- Camera
- Mobile Web Access
- Text/Picture Messaging
- Phone book = 200 entries
- Battery life: 5 hours talk time, 8 days standby
- Show airtime used and how much is left
- \$14.99

I place 1 last because 1 only had 200 entries in the phone book and Anthony said that he had more than 200 contacts to enter into his phone.
