

## Class #6 –Mystery-Computers

Peter is going off to college and needs a new laptop for his dorm room. He wants a computer that is small and easy to transport to his classes but something he can use in his dorm room to type research papers and do his math with. Since he will have a lot of math classes he must have a 10 key numeric pad on his keyboard. He would also like a webcam to skype to his siblings and parents during the week. He has \$400 to spend. Help Peter find the best laptop for school.
