

## Watches

Jacob needs a watch for his diving adventures. He wants one with a date as well. Jacob also travels a lot overseas and would like a watch with other world times on it. He only needs the watch for casual wear because he just received a watch from his wife for more formal events. Please help him find the best watch.

| Watches:          | Watch #1  | Watch #2   | Watch #3               | Watch #4   |
|-------------------|---|--|------------------------|--|
| Price:            | \$1,500   | \$2,000  | \$5,000                | \$468.75   |
| Depth for diving: | 500M  | 300M   | 100M                   | 200M   |
| Crystal Type:     | Sapphire  | Sapphire   | Sapphire               | scratch resistant mineral crystal with anti-reflective coating |
| Date:             | yes   | yes  | yes                    | yes  |
| World time:       | No  | No   | Yes                    | yes  |
| Movement:         | Quartz and automatic  | Mechanical with Automatic Winding                    | Mechanical Selfwinding | Quartz   |
| Band:             | 3-row fine-brushed steel bracelet with solid steel clasp, diving extension system and safety push buttons | Original Stainless Steel Bracelet 60 grams in weight | Oyster steel           | Rubber/Plastic strap   |

Placing:

4-1-2-3

4: Scuba Diving watch at at least 200M. Least expensive. Date and world time. Has a quartz movement which is most accurate in time. Scratch resistant crystal type.

1: Scuba Diving watch which has the most depth at 500M. Has best crystal type. Has date and quartz and automatic movement which is very accurate but not the best. Nice steel bracelet for both formal and informal. No world time and more expensive than 4.

2: Scuba Diving watch which has a depth of 300M. Has best crystal type. Has date and mechanical and automatic movement which is a nice craftsmanship but is not very accurate in time because the time needs to be winded regularly and loses an hour a year. Nice stainless steel bracelet for both formal and informal but not as nice as #1. No world time and more expensive than 4 and 1.

3: Not a diving watch at only 100 M. Most expensive in class.
