The Texas 4-H Contest has its own registration process with a deadline of April 15<sup>th</sup>, 2026.** Senior 4-H members wishing to enter the state contest should contact their County Extension Agent for details. The District 8 4-H Photography Contest is in addition to the state Senior contest.

4. **Number of Entries per County.** A county may have only one entry per category in each age division for a total of 30 entries per county. ***Photos entered at District must qualify at the county level first!***

Deadlines vary by county, so you will need to contact your County Extension Agent. Each photo will have a \$5 entry fee. ***Photos entered at District must qualify at the county level first!***
6. **Alteration of Photos.**  
Color and Black & White photos are allowed in all categories. Although slight computer enhancements are allowed, such as cropping, minor adjustment of lighting, and red eye reduction; substantially altered photography, such as applying design styles, or using computer graphics will disqualify an entry. Any other alteration, manipulation, or edits to a photo would require the photo to be entered into the Enhanced category.
7. **Text on Photographs.** Photographs **MUST NOT** contain camera or user placed text. This includes such things as date stamps, comments, or titles. Text or wording that is part of the photograph (i.e. photo of a street sign, etc.) is acceptable.

## Judging Criteria

Each photograph will be evaluated against the following set of criteria. Based on total points awarded for each photograph, the participant will be awarded a blue, red, or white ribbon. The criteria for evaluating the photographs will be:

<b>IMPACT</b> (Max Points: 15)	Impact is the sense one gets upon viewing an image for the first time. Compelling images evoke laughter, sadness, anger, pride, wonder or another intense emotion. There can be impact in any of the judging elements.
<b>CREATIVITY</b> (Max Points: 15)	Creativity is the original, fresh, and external expression of the imagination of the maker by using the medium to convey an idea, message or thought.
<b>TECHNICAL</b> (Max Points: 20)	Technical is the quality of the image itself as it is presented for viewing, which includes the following aspects: <ul style="list-style-type: none"><li>• allowable amounts of retouching and adjustments (removal of red eye, cropping, minor straightening)</li><li>• sharpness and correct color balance</li><li>• lighting, which includes the use and control of light. The use of lighting whether natural or man-made and its proper use to enhance the image.</li><li>• Posing and capturing of the image</li></ul>
<b>DIFFICULTY</b> (Max Points: 5)	Difficulty is the level of challenge in capturing the image. It takes into account factors such as lighting conditions, subject movement, timing, and setting. Higher scores reflect images where the photographer successfully managed more complex or demanding conditions.
<b>COMPOSITION</b> (Max Points: 20)	Composition is important to the design of an image, bringing all of the visual elements together in concert to express the purpose of the image. Proper composition holds the viewer in the image and prompts the viewer to look where the creator intends. Effective composition can be pleasing or disturbing, depending on the intent of the image maker.
<b>SUBJECT MATTER</b> (Max Points: 15)	Subject Matter should always be appropriate to the story being told (i.e. category the photo is entered into) in an image. Subject matter also includes the center of interest for the photograph or where the maker wants the viewer to stop and they view the image.
