1. Contest Format.

1. 30 Texas agricultural products are selected from the attached Texas Agriculture Products List and exhibited at separate stations
2. Contestants select the correct identification of each product from four possible answers.
3. Each station also has one multiple choice question pertaining to the product on display. Questions are general to the industry that produced the product, (i.e. Texas' national ranking, economic impact to Texas, general nutritional content, region of production) or specific to the individual product that is on display (i.e. cooking method, use, growing season, specific nutrition of the cut or variety).
4. Contestants are given 30 seconds at each station to answer both questions.
5. Contestants must advance from one exhibit to the next when instructed to do so.
6. Contestants must evaluate each exhibit in sequence and will not be allowed to return to any exhibit after advancing.

2. Scoring. Contestants will receive five points for each product that is correctly identified and five points for each question that is correctly answered. However, for points to be awarded on questions pertaining directly to the product displayed, the product must be correctly identified. (Total possible points: 300 per individual.)

3. Team Scores. Team scores will be determined by the combined score of the three (3) highest scoring individual team members. The contestant with the lowest score will be designated as an alternate but will still be eligible to receive individual awards. (Total possible points: 900 per team.)

This request must be made on the Official BCYF Exhibitor Substitution Form provided by the Show Secretary. ARRIVAL, WEIGH IN AND CLASSIFICATION:

1. Please see the Show Schedule for specific arrival and check-in times.
2. Livestock arriving after designated times will be allowed into the barn only if they have made it to the facility grounds within **TWO (2) HOURS** of the deadline. All late arrivals will be charged a **\$50.00** penalty and will be required to hold their livestock outside until all weigh-in is complete before entering the barn.
3. Exhibitors will be assigned a pen or stall space by the show committee.
4. Only a BCYF exhibitor is allowed to bring an animal through weigh-in and classifying for all species.
5. Exhibitors will receive official weight cards from the show committee
6. Official weigh-in and classification of livestock will be final.
7. Please see Division rules for species specific weight tolerance.

8. Undesirable animals will be removed from the show. Any animal that does not meet the minimum weight limit is not eligible to sell at the floor price.

9. Unruly animals deemed unsafe by show officials will be removed immediately.

10. Animals are not permitted to leave the show barn after check in. If an animal leaves the show barn at any time for any reason, that animal will no longer be eligible for further competition.

COMPETITION:

1. Only the top 10 animals in Market Steers, Market Meat Goats, Market Lambs, and Market Swine will be placed in each class. Ribbons will be awarded to 1st-10th place. Prize money will be paid to the 1st-5th place. (Exception - Market livestock classes and other classes that sell in the auction will receive no prize money.)

3. Exhibitors are responsible for knowing the times at which their animals will be judged. Any animal not presented promptly will be ruled ineligible and barred from competition in the class. No complaint or protest on the grounds that the judge overlooked animals will be considered.

4. The decision of the judges shall be final in all cases except where mistakes, fraud, misrepresentation, or collusion, not discovered at the time of the award, is proved. In such cases, an official protest must be made and reviewed.

The following procedure will be followed for all protests.

* To advance a protest, the protest must be presented to the General Superintendent.

* Protest must be in writing, signed by the exhibitor or parent/legal guardian and must contain the ruling of the division. All protests must be made within one hour after the Grand Champion drive to General Ag Superintendents. The General Ag Superintendent then must notify the specific species Superintendent and then the BCYF Board Members of protest.

* To advance a protest for final disposition by the Board of Directors, protest must be accompanied by **\$100.00 cash**. If the protest is upheld by the Board decision the \$100.00 cash will be refunded. If, in the opinion of the Chairman, there is not sufficient time to assemble a quorum of the board, the decision of the General Superintendent shall be final, because in no case will the show be delayed in order hear a protest. Any project in which the ownership is being contested through a formal complaint filed with the Board of Directors and the show superintendents must be done 1 hour before the judging of that project.

AUTHORITY AND CONDUCT:

1. All show personnel, supervisors, and parents are responsible for policing the barn and are authorized to take immediate action to prevent damage, mischief or harm to animals or barn property. Problems should be reported to the Fair Committee.

2. Un-sportsman like conduct (i.e., verbal or physical abuse) will be grounds for expulsion of the person from the entire show. If the person is an exhibitor, all projects will be removed. 2025-2026 TEXAS 4-H/FFA LIVESTOCK PROGRAM ETHICS POLICY

(Updated April 2025)

This ethics policy applies to any 4-H/FFA member planning to exhibit animals at livestock shows in Texas. All classes of livestock offered at the livestock event are included: Cattle, Goats, Sheep, Swine, and any other livestock classes offered. This "Texas 4-H/FFA Livestock Program Ethics Policy" will be enhanced with additional rules and guidelines which individual fairs and livestock shows adhere to on the local, county, regional, and state levels. The provisions contained in this policy do not constitute a contract, express or implied, between Texas A&M AgriLife Extension Service, Texas 4-H, Inc., or Texas FFA and any applicant, participant, or parent. Additionally, the terms and conditions contained herein do not create or expand legal rights already existing under the law. 4-H and FFA livestock project exhibitors are under the supervision of an Agricultural Science Teacher or County Extension Agent who serves as the advisor for that project. The Major Livestock Shows of Texas support the educational content and leadership provided by the Texas A&M AgriLife Extension Service, and the Agriculture Teachers Association of Texas. Also, the Texas Major Livestock Shows fully support the administrative authority of Agricultural Science Teachers and County Extension Agents to certify the fulfillment of all validation protocols and appropriate paperwork between the exhibitor, Texas 4-H/Texas FFA, the major livestock shows and the supervising educator. Exhibiting livestock is a privilege, and exhibitors must comply with this document and respect the authority granted to his/her supervisor. Additionally, any verbal, physical, or otherwise demonstrated threats or comments toward validation personnel, volunteers, or show leadership will not be tolerated and may result in disciplinary action, including but not limited to: disqualification, a cancelled validation record, and/or future validation records. The following practices or procedures are unacceptable and are defined as being deceptive, fraudulent, unethical, and inhumane in the care, fitting, preparation and showing of all classes of livestock. The use of any illegal drug is prohibited. Any practice used to alter the appearance of an animal entered in livestock events is prohibited (See Rule #9 & #10). Proof of any animal being subjected to illegal and/or unethical practice(s) and/or procedure(s), including inhumane animal treatment, abuse, or neglect, described herein may result in disqualification. If a violation is found of any of the following rules, this may result in a cancelled validation record or future validation records. All 4-H/FFA exhibitors must follow these rules to enter livestock at organized competitive events. 1. Exhibitors must be bona fide members of a 4-H Club or FFA Chapter in the State of Texas and be in good standing and eligible to compete in accordance with each respective organization. The exhibitor must care for their animals under the direct supervision of a County Extension Agent or Agricultural Science Teacher. Exhibitors must be enrolled in, and attending, public or private and/or home school elementary or secondary schools in Texas. Texas 4-H and/or Texas FFA reserve the right to seek verification of enrollment, records, and/or passing status from the accredited governing homeschool association. Exhibitors must be Texas residents. State validated livestock must be housed and cared for in Texas. 2. County-Level State Validation serves as proof of ownership for state validated livestock. For breeding animals, the official ownership date is the date reflected on the registration papers. This date is the specific date for each breed of record as recognized by the validation program. (Individual show rules may determine ownership requirements for non-market animals.) Registered breeding heifers must show the exhibitor as the sole owner of the animal on the breed association papers. Registered breeding heifers with additional registration papers within the breed association of validation record or in another breed association may be evaluated for multiple ownership. If additional registration papers are found active within an association indicating ownership information conflicting with the exhibitor's ownership designation, the livestock may be subject to disqualification. 3. To gain the life skills developed through the livestock project, exhibitors must be closely engaged in the continuous feeding, maintenance, training, grooming and overall welfare of his/her animals. Exhibitors and immediate family/guardians are responsible for providing the primary and continuous daily care of livestock projects throughout the validation period. The validation period begins immediately following the county-level state validation date regardless of the validation deadline date listed. Exhibitors must provide continuous care for all cattle, sheep, swine and goats through exhibition at all livestock shows and/or animal's eligibility to show. Facilities and location/space are a major determining factor in livestock species selection by the exhibitor. In some instances, it may be in the best interest of the exhibitor and his/her learning experience to select a species project that is best suited for his/her

facilities and feasibility of housing projects.

a. 4-H and FFA livestock project exhibitors are under the supervision of an Agricultural Science Teacher or County Extension Agent who serves as the advisor for that project. Excessive involvement of third-party consultants, breeders, fitters not affiliated with the Texas 4-H and/or Texas FFA programs is prohibited. Third-party involvement interfering with the exhibitor's ability to provide primary daily care of and engagement with livestock projects may result in the disqualification of all state validated livestock projects owned by all associated exhibitors/families. Likewise, third-party involvement interfering with the County Extension Agent and Agricultural Science Teacher's ability to properly supervise the livestock project may result in the disqualification of all state validated livestock projects or future validation records.

b. Livestock projects must be raised at the physical address of validation record. Prior approval must be granted by the "Species Specific County-Level State Validation Committee" in the event the animal will be outside the direct care of the exhibitor, immediate family/guardian, and/or the supervising County Extension Agent or Agricultural Science Teacher. Failure to gain approval from the supervising Agricultural Science Teacher/County Extension Agent and the Species-Specific County-Level State Validation Committee will result in the disqualification of all state validated livestock.

c. To obtain prior approval, exhibitors must complete an official 4-H/FFA Validation Rule #3 Prior Approval Form. Exhibitors not obtaining prior approval as outlined above will be subject to disqualification of the livestock in question and any other state validated livestock projects. The form can be accessed here:

<https://texasyouthlivestock.com/wp-content/uploads/2021/08/Rule-3-Approval-Form.pdf> By signing the Texas 4-H and FFA Livestock Program Ethics Policy, the exhibitor and parent/guardian, recognize his/her responsibilities for the primary and continuous care of livestock projects throughout the feeding period and hereby authorizes the State Validation Coordinator or designated representatives and/or State Validation Compliance Team, supervising AST/CEA and the "Species Specific County-Level State Validation Committee" **the right to inspect your livestock project(s), along with any other state validated livestock projects on premises, at any time during the feeding period with or without prior notice.**

State validated livestock must be made available for inspection at any time requested at the address listed on validation record or any other property (public or privately owned) where the livestock may be located. Failure to make inspection available as requested will constitute a violation of validation rules and will lead to disqualification of the livestock in question and any other validated livestock.

Additionally, any exhibitor in violation of the primary and continuous daily care rule is subject to disqualification. d. The following is intended to serve as a guideline for housing state validated livestock. Texas 4-H and FFA livestock exhibitors are expected to follow these guidelines under the supervision and approval of their County-Level State Validation Committee and supervising Agricultural Science Teacher and/or County Extension Agent. In any instance of discrepancy, the Species-Specific State Validation Chairperson and the State Validation Executive Committee have the right to interpret these rules and will have the final decision on all housing inquiries.

i. All state validated livestock should be housed at the home of the livestock exhibitor or a family member or at a county or school ag facility. Any exhibitor who has existing livestock facilities or existing land to build such should house their livestock projects at their residence or at a county or school facility. It is the burden of the livestock exhibitor's family to research and contact all school or county facilities in the county before exploring alternative options. ii. If the previous facilities do not exist, an alternative facility may be investigated to house the livestock. A facility of this nature can only be explored after previously listed facilities have been exhausted. Alternative facilities must be within the exhibitor's county and/or school district, unless deemed appropriate by designated approval documents. Alternative housing addresses must be listed on the Texas 4-H/FFA Livestock Program Ethics Policy Acknowledgement/Signature Form. Additionally, alternative facilities may only be used with approval from the County-Level State Validation Committee. These requests may be denied based on existing evidence of possible housing facilities listed in #1 AND/OR due to concerns of excessive third-party involvement. The burden of seeking approval is on the livestock exhibitor's

family. The Species-Specific State Validation Chairperson and the State Validation Executive Committee have the right to interpret these rules and will have the final decision on all housing inquiries in instances of disagreement or interpretation. If an exhibitor is concerned of a potential housing facility that may not be acceptable according to the listed criteria, please contact the Species-Specific State Validation Chairperson for an advisory opinion. All interpretations, decisions and settlements will be made by program leadership to align these rules with the best interest of the program and participants. These requests and/or appeals will be approved/denied based on, but not limited to, the following criteria: existence or availability of housing facilities listed above, location, proximity to exhibitor, excessive third-party involvement, and previous instances of rule violation or excessive third-party involvement at the intended location. Excessive third-party involvement may be defined as, but is not limited to, the following: **1)** Decision making or advice counter to that of the supervising County Extension Agent or Agricultural Science Teacher **2)** Daily or frequent feeding, training, maintenance, washing, rinsing, blowing, or other care practices **3)** Interfering with or denying access to CEA, AST, and/or any other county or state level committee member as listed in Rule #3 to supervise or check state validated livestock **4)** Encouragement of or use of unethical fitting or showing practices as listed in Rule #9 **5)** Excessive or misleading advice at livestock shows

6) Any rule violations by the livestock housing provider **iii.** Violation of livestock show rules or validation regulations by a livestock housing provider may result in the removal of that location from the list of approved validation housing sites, including Rule #3 Approval Form address

4. Animals validated for the Texas state validation program may also be exhibited at other shows. Be advised, however, the sale or participation in terminal shows will impact the state validated animals per the directives outlined below involving chain of animal ownership. **a.** If any Texas state validated animal is exhibited and SOLD at any other major livestock show officially sanctioned by Texas state validation, the animal will be ineligible to show at any subsequent major livestock show in the animal's lifetime. These shows include: Heart 'O Texas Fair, State Fair of Texas, Grandstand/Hill Country District Livestock Show, Fort Worth Livestock Show and Rodeo, Sandhills Stock Show, San Angelo Livestock Show and Rodeo, San Antonio Stock Show & Rodeo, Houston Livestock Show and Rodeo, Rodeo Austin, Texas' Elite Showcase, and the Rio Grande Valley Livestock Show **b.** Additionally, Texas state validated livestock offered for sale during the feeding period via private treaty, private or public auction (including terminal county livestock show auctions) will be ineligible to show at any subsequent major livestock show during the feeding period. If ownership changes or has the possibility of changing through a sale offering (including animal(s) purchased back by the exhibitor of validation record), regardless of method or length of time, that chain of animal ownership is considered broken and will be ineligible to show at any remaining livestock shows in the feeding period requiring state validation. **5.** DNA samples obtained from livestock at the time of County-Level State Validation must match DNA assays obtained any time during the feeding period for the state validated animal and exhibitor record. **6.** A state validated livestock project may not be simultaneously validated in more than one county or state. Additionally, a state validated animal may not be county or state validated under a different exhibitor's name in another county. State validated livestock projects must be validated through the County 4-H Program or Texas FFA Chapter in which they will enter and show the livestock project in Texas major livestock shows. **7.** Any method used to misrepresent the age of an animal for a class in which it is shown is deceptive and considered a violation of the rules and guidelines. Any method used to misrepresent the breed or falsification of documents for a breeding animal, as determined by a recognized breed association or livestock show, is deceptive and considered a violation of the rules and guidelines and may result in disqualification of the state validated livestock. **8.** Family validation is permitted under certain circumstances. "Family validation" means state validating livestock with related family members in the same household, or separate, in the case of split family divorce situations. To be eligible for family validation, the youth participants must be related family members. "Related family members" for the

purpose of state validation means nuclear family, stepfamily, or siblings via guardianship. Failure to utilize the student's legal name on any validation form or livestock show entry form is a violation of the Ethics Policy and may result in disqualification. Documentation, including official government-issued documents, may be requested in order to certify the identity and/or custody status of the youth participant. **9.** Showing an animal for another individual by claiming ownership in order to show in a specific livestock class/event or claiming ownership through signage, social media, or any other advertising method is prohibited. A false claim of ownership is a violation of these guidelines and will lead to disqualification. **10.** Treating an animal internally or externally, with any irritant, counter-irritant, or other substance used to artificially change the conformation or appearance, or enhance performance, of an animal for show is considered unethical, inhumane, and is prohibited. Surgery, injection or insertion of foreign material under the skin and/or into the flesh of an animal to change the natural contour, conformation or appearance of an animal's body is illegal. This includes, but is not limited to, injection of gas, air, oil, or other foreign substances; cutting/tearing of the hide/underneath the hide or removal of tissue in any attempt to alter the physical appearance of the animal; numbing or "deadening" an animal's tail; cutting tendons of an animal; using foreign substances to build or cosmetically re-shape feet; as well as "twining" which includes the attachment of hair or hair substances (i.e. baling twine, cloth, fiber, etc.). Acceptable practices of physical preparation which are allowed include: clipping of hair, trimming of hooves, dehorning, removal of ancillary teats, and docking of tails. **11.** The use of unethical fitting, showing and/or handling practices or devices compromising animal welfare shall not be tolerated. **12.** Livestock exhibitors will be held accountable for the Species-Specific Validation Guidelines for each species in which they state validate livestock projects. Livestock exhibitors will also be held accountable for the rules and guidelines for each major livestock show in which they exhibit state validated livestock. Validation Guidelines may be found at www.texasyouthlivestock.com **13.** The Texas 4-H and FFA State Validation Executive Committee reserves the final and absolute right to interpret these rules and to settle and determine all matters, questions, and differences in regard thereto, or otherwise arising out of, or connected with, or incident to "Texas 4-H and FFA Livestock Program Ethics Policy". All interpretations, decisions and settlements will be made by program leadership in order to align these rules with the best interest of the program and participants. ***Any violation of the "Texas 4-H and FFA Livestock Program Ethics Policy" and/or associated validation guidelines, as well as specific rules as designated by individual fairs and livestock shows may result in disqualification and/or probationary status and/or loss of eligibility for future participation in organized livestock competition.*** Possible civil or criminal penalties may be imposed by the proper authorities based on evidence provided by the livestock show of exhibitors in violation of the Federal Food, Drug and Cosmetic Act or the animal mistreatment, neglect, and abandonment laws that apply on the local, state, and/or national levels. All rule violations will be dealt with on an individual basis by the "Species-Specific State Validation Committee", the State Validation Coordinators, and/or appropriate livestock show officials.

AGRICULTURE DIVISION SPECIAL RULES

ANIMAL HEALTH ISSUES POLICY & PROCEDURES:

Animals needing care upon and after arrival on the Cadence Bank Center grounds are always subject to this policy and procedures.

The official Show Veterinarian is designated annually by the Bell County Extension Office County Coordinator who will then maintain a memorandum of agreement with said Official Veterinarian. The animal care site on the grounds will be determined by show officials. This location is for the convenience of exhibitors, the show officials and for the quality assurance issues impacting the wellbeing of the animal and the ultimate end user.

The Bell County Youth Fair Association and the Bell County Extension Office will arrange to have an official veterinarian on call and available; however, they do not donate their services or medications. Fees should be discussed before treatment. All medication administered during the livestock show must be Administered only by the Official Veterinarian and a written medication record must be filed with the Show officials by the Official Veterinarian.

Exhibitors, parents, volunteers, and supervisors with questions regarding animal health issues and/or the need for medications should consult with the Bell County Youth Fair General Superintendents and/or the Extension Designee Ex-Officio to the Fair. These officials will then contact the Bell County Youth Fair Official Veterinarian upon the request and/or the needs of the animal. This can be prior to competition and/or after competition is complete.

Animals receiving performance enhancing drugs per the official veterinarian action (i.e. including, but not limited to, steroids, diuretics, anti-inflammatory, tranquilizers and pain killers) in this manner may be deemed ineligible for competition. The Official Show Veterinarian may remove any animal from competition if the health, safety, or welfare of the animal is in question.

At no time during the time the animal is on the grounds can it be administered any medication by the Exhibitor, Volunteer, Supervisor, and other Veterinarians not designated as Official by the Bell County Youth Fair and Bell County Extension Officials.

This policy and procedure is in place to protect the end user, individual and/or company purchasing the floor animals, and to insure the USDA Meat Quality Assurance Standards per The Wholesome Meat Act as well as assuring fair play for all exhibitors. Proper animal husbandry and animal care standards expected by the participants and attendees will be always maintained.

ANY EXHIBITOR NOT PROPERLY CARING FOR THEIR ANIMAL during the show, such as feeding, watering, and cleaning pens, may be barred from the show the following year. Exhibitors are expected to always keep the area around their exhibits neat and clean.

RULE REQUIREMENT: Unless specifically exempted in special rules, all entries and awards are subject to the General Rules. Records may be required by show officials as proof of ownership.

HEALTH RULE: Special care will be taken that animals having diseases of any nature will not be admitted into the show at any time. Unhealed animals from castration, dehorning, docking, or other operations shall be barred from the show. Exhibitors must comply with all rules and regulations set forth by the Texas Animal Health Commission.

DRUGS: All drugs must be administered by the BCYF Show veterinarian. All market animals may be subject to drug tests.

UNETHICAL FITTING RULE: The act of artificially filling animals internally, which would include stomach pumping, drench tubes, or any other method per os (by esophagus), is prohibited.

WHOLESOME MEAT ACT: The USDA Wholesome Meat Act applies to all market livestock. Only animals eligible for immediate slaughter may be brought onto the grounds and exhibited.

- (a) Animals must be in good health and carcasses free of drug or chemical residues.
- (b) Drug label directions for use and withdrawal periods must be followed.
- (c) If drug or chemical residues are found in tissue of carcasses, the entire carcass may be condemned.

Bell County Youth Fair and Livestock Show, Inc. will in no way be liable or responsible for the condition of carcasses or the sale price of the animal. In such cases, the exhibitor forfeits all rights to any and all proceeds including Auction Price, Scholarships, Premium Awards, Market (Floor) Price and Special Awards.

As breeding animals are not entering the food chain, the USDA Wholesome Meat Act does not apply to these animals; however, breeding animals will be closely screened for any performance enhancing compounds. This includes, but is not limited to steroids, diuretics, and pain killers.

DIVISION J - FOOD PRESERVATION

SUPERINTENDENT: MELISSA FREI, 254-913-7270

All rules in Div. K Foods apply to Food Preservation.

No quilted jars or jars with fruit pictures on them. This allows for better visibility during judging. Since Food Preservation is not tasted, appearance plays a major part in judging. Clear jars without patterns allow more visibility for judges.

ALL FOOD RULES WILL APPLY TO THIS CLASS.

SPECIAL RULES:

- 1. Canning Procedure:** All entries must be either processed in a boiling water canner etc. (if they are high acid foods) or in a steam pressure canner etc. (if they are low acid foods). The processing method required for foods is determined by the pH of the specific food being canned. Periodically, old methods of preparing food are revived; these methods are not reliable and not recommended. For example, the open kettle method is not acceptable.
- 2. Jars:** Based on recommendations by the Extension Food Safety Specialist, NO jars will be tasted or opened for judging. All jars must be clear, no colored jars. Mason, Ball, Kerr, Collection Elite Ball jars or Better Homes & Garden are allowed. The jar must have a ring on it. **No quilted or jars with embossed pictures are allowed in any Food Preservation Class.** Standard pint or quart canning jars with brand name on the side or bottom of jar and standard canning lids are required for all classes. **Standard pint or decorative 1/2 pint canning jars are acceptable for Jellies, Jams, Preserves, Marmalades, Conserves and Butters. No added decorations on jars.** No attachable labels on the jars or fabric on lids. No one piece lids. **ONLY STANDARD CANNING JARS will be accepted.**
- 3.** Products for canning may have been bought, but they must have been canned solely by the exhibitor during the current year.
- 4.** Refer to page 90 Special Rule #3 for recipe card instructions. Canning procedures used must be indicated on the recipe card. The recipe card must include head space measurement.
- 5.** Entries will be judged on criteria such as the pack quality of liquid, color, clarity, container etc. but not flavor.
- 6.** Items will be disqualified if they are: not sealed, are moldy or appear spoiled, or if the jar is broken or appears in any other way contaminated. Items will be disqualified if they are not in the standard canning jars which were specified or if the lids or rings are rusted.
- 7.** If you are entering items in classes J-5 or J-6 Relishes and other Pickled Foods, the recipe must include blending of spices, sugar and vinegar with fruits or/vegetables which creates a crisp firm texture and pungent sweet-sour flavor. If products are not pickled, they must be entered in either J-7 or J-8 if they are vegetables/fruits and Tomatoes.

8. Exhibitors may not remove scorecards, ribbons, etc., until release time Thursday, Feb. 12, 2026.

9. Food Preservation items are NOT eligible for the Country Store.

DEFINITIONS:

Boiling Water/Canning Method— High acid foods are processed in a boiling water canner. The heat is transferred to the product by the boiling water which completely surrounds the jar and two-piece cap. A temperature of 212°F is reached and must be maintained for the time specified by the recipe. This method is adequate to destroy molds, yeasts and some bacteria, as well as to activate enzymes.

Steam Pressure Canning Method – Low acid foods must be processed in a steam pressure canner. In order to destroy all bacteria, their spores and the toxins they produce, low acid foods must be heated to a temperature of 240° F and held there for the time specified by the recipe.

High-Acid Foods—These foods have naturally high levels of acid or have a sufficient amount of acid added to them. Bottled lemon juice, citric acid or vinegar labeled 5 percent acidity are sometimes added to recipes to increase acidity. Foods in this category must have a pH of 4.6 or lower. The boiling-water method of processing is adequate for high-acid foods. Generally, all fruits and soft spreads are classified as high-acid foods.

Figs and tomatoes require the addition of an acid so they may be safely canned using the boiling –water method. Fermented foods, such as sauerkraut and brined pickles, and foods to which a sufficient amount of vinegar is added are also treated as high-acid foods. Some recipes may call for high-acid and low-acid ingredients but still be classified as a high-acid product; these recipes must have a pH level of 4.6 or lower.

Low-Acid Foods—These foods have very little natural acid. Vegetables, meats, poultry and seafood's are in the low-acid group. Soups, stews, meat sauces and other recipes which contain a combination of high-acid and low-acid ingredients, yet remain with a pH level higher than 4.6, must be processed as a low-acid product.

CANDY CLASSES

SUPERINTENDENT: NISSA WALKER, 254-760-0908

ALL FOOD RULES WILL APPLY TO THIS FOOD CLASS.

SPECIAL RULES:

1. 12 pieces per entry, all classes.
2. Candy products do not contain flour as an ingredient.
3. Microwaves should not be the primary cooking source when making candy.
4. **ALERT:** Dipped fresh fruit such as chocolate covered strawberries or dipped dried fruit or chocolate covered insects are not considered candy.

DEFINITIONS:

Divinity: Very sweet very soft candy made from white or brown sugar, whipped whites of eggs, corn syrup, water, salt, and flavoring. If brown sugar is used instead of white sugar the candy is called sea foam. Some recipes for divinity candy specify ingredients such as peppermint, cinnamon, chocolate, or candied fruits for flavoring.

Fudge: A thick, firm, smooth candy that is set-up in a pan and cut into squares. Candy can be cooked or uncooked. Degree of difficulty increases with cooked recipes. Ingredients usually include butter or margarine, fat derived from chocolate, milk, and sugar. Other flavor variations might include peanut butter, marshmallow, white chocolate, etc. Nuts may be added.

Brittles and Other Hard Candies: Breaks with sharp edges rather than bends, candy mass is somewhat Crunchy. These include brittles, lollypops. No peppermint barks.

Brittle: A candy made from sugar that has been cooked to a high temperature. Nuts are a common addition to brittles. The nuts may be added to the hot sugar and the mixture is poured out in a thin layer. Baking soda may be added to form a light texture. The resulting candy is hard and snaps easily, thus the term "brittle." This class includes nut brittles, lollypops, and other hard candy.

Toffee: A candy formed by boiling a sugar mixture to a high temperature, normally soft crack, or hard crack. Toffee normally has a hard, slightly chewy texture and a rich taste that is gained by adding butter to the sugar mixture. Other additions may include nuts and chocolate. Cracker toffee is not acceptable.

Pralines: (This candy may have two different forms.)

Louisiana Style: A candy consisting of primarily a brown sugar-based sugar syrup mixture and pecans or other nuts. The candy is formed into small patties and often has a slightly crumbly, grainy texture.

Mexican Style: A candy consisting of a sugar mixture cooked to a caramel like texture that is thick and chewy. Nuts may be included in the caramel mixture or only found on the outer part of the candy. The caramel may be cooled and formed into a cylinder or log shape and rolled in nuts. The candy is then cut into serving size pieces.

Candy Other Types: This includes any candy that is not a fudge, brittle, divinity, toffee, or praline. Such as fondant, caramels, taffy, and filled or dipped candies such as bon bon and chocolate covered maraschino cherries. Graham cracker crumbs are not allowed.
