

FALL VEGETABLE VARIETIES

by Dr. Jerry Parsons-Vegetable Specialist
& David Rodriguez, County Extension Agent-Horticulture

The following dates correspond to the time span during which plants can be grown directly from seeds sown in the garden area. If one decides to plant a certain crop which the recommended dates indicate is too late to seed directly into the garden area in a specific region, then transplants must be used. The dates insure success only if recommended, fast-maturing varieties are used.

Vegetables and Varieties	Hill Country	San Antonio	Laredo & South
Beans, bush-Greencrop, Tendercrop. Topcrop, Contender Beans; Snap-Blue Lake, Kentucky Wonder	Aug. 1-Aug. 30	Aug. 13-Sept. 10	Aug. 13-Sept. 30
