

SECOND STEPS IN BEEKEEPING

TEXAS A&M
AGRI LIFE
EXTENSION

If you have attended the Beekeeping Basics program or already have bees and are ready for some more in-depth information, this course will cover those needs! We will discuss the next steps in beekeeping once you have installed your bees. Topics are subject to change and may include a presentation from the Texas Apiary Inspection Service on pests and diseases of honeybee hives, a recap of bee biology, what you should see inside your hive, recognizing stress, winterizing your bees, requeening, and management of pests and diseases. There will also be a field day to a local bee yard to do a mite check.

September 28, 2018
9am-3:30pm

Leon Springs Rudy's BBQ Doc Holiday Banquet Room**
24059 Old Fredericksburg Road San Antonio TX 78257
Field Day also in Leon Springs area - 24510 Clearwater Run, 78255
