Youth Fair Committee Minutes

Attendance: Tammy Davis; Jonai Thomas; Jamie Davis; James Dortch

It has been suggested that we begin small and add on each year. This year, begin with non-livestock events, and add those in in subsequent years. We should include workshops on available 4-H project areas, including demonstrations of as many as possible. (robotics, food and nutrition, clothing and textiles, etc...) These may also serve the purpose of educational presentations. We should include record book presentations. We need to ask Cameron if we have access to all of the fairgrounds facilities on May 20, or just a portion. This is especially important if we are going to be including livestock shows in the Youth Fair. There needs to be a presentation on what D9 is, and what district and state roundups entail, so that the kids are more aware of their opportunities in 4-H. A club can provide concessions. Leighan Webb messaged in saying that as goat committee chair, she wants to have only a market show, in order to remain true to it being a progress show for preparation for the fair. Another idea was a "wall of fame" to show the accomplishments of the 4-H kids, this can be used for both encouragement and information.

Our next meeting will be January 23, 2017 @ 6:30 PM
