Joe and Veronica love the outdoors and hiking. They are planning on going on a weekend (3 day, 2 night) trip and need to find the perfect backpack for their adventure. Their trip will take place in May. They are looking for a lightweight backpack with plenty of room to hold their necessities (water, tools, etc.). Joe and Veronica will both be wearing the backpack. Joe’s waist is 42 in. and Veronica is 30 in. They are looking to spend less than $200.

Jayden is looking to buy his favorite teacher an appreciation gift. He notices that she brings bottles of water to school frequently and likes to drink coffee. He wants a cup that is at least 24 ounces, has a lid, is durable and reusable, is insulated to keep hot drinks hot and cold drinks cold, and is dishwasher safe. Since this is his favorite teacher, he has saved up $30 to spend. What cup should Jayden buy?

Amy needs a running shoe and an active wear shirt for track at school. She would like arch support in her shoes. Her budget only allows for a $100 purchase. She would like the shirt to reflect well because she likes to also run late at night during the summer or early mornings during the school year. She would also like both items to be bright colored so she can easily find them in her duffle bag.

Jessica is a professional photographer and she is looking for a new computer with a bigger screen so that she can edit photos for her clients easier. Jessica would also like it to be light weight for traveling and packing purposes, but also have plenty of memory. Also, she would like to be able to use the computer without having to worry about plugging it in to charge all the time. Jessica’s budget is $850.

### Dell Inspiron Laptop AMD A8 Series
- $599.99
- 17.3” Screen size
- Battery Life 8.5 hours
- 8 GB memory

| − lightweight Altair 1 aluminum compact frame  
− 27 speeds  
− Multiple seat positions for leisurely riding, training, or competitive racing  
− Shimano STI shifters combine braking and shifting so you can stop your bike without large hand movement | − Our fixed gear bicycles are hand built for the commuter lifestyle  
− One speed  
− Each fixed gear bike includes a flip-flop hub, so you can easily switch from fixed riding to coasting with a freewheel. | Designed with 24 speeds and great for all types of terrain, this Mongoose® men's Vinson fatbike offers a totally versatile ride! Its wide Veerubber Mission tires supply great traction no matter where you go, while the dual disc brakes make it so simple to stop. | Features cruiser frame, coaster brakes, 26" x 2.35" tires, front basket, beverage holder, dual density grips and pedals, 12-gauge spokes, fender, alloy quick release seat. |
JUNIOR/INTERMEDIATE

Class #1 – Athletic Shoes

Placing: 4-3-1-2  
Cuts: 3-2-5

Reasoning:

In the top pair, I placed 4 over 3 because:
• 4 has rubber cleats
• Is made for real grass
• Has 9 spike rubber layout, which is what is used in baseball

Grants to 3
• They are a comparable shoe, but the coach prefers rubber cleats over metal.
• 3 costs $5 less.

In the middle pair, I placed 3 over 1 because:
• 3 is a baseball cleat for real grass whereas 1 is made for artificial turf
• 3 is a baseball shoe and 1 is a lacrosse shoe.

Grants to 1
• 1 is much less expensive but doesn't meet the needs enough to move up in the class.

In the bottom pair, I placed 1 over 2 because:
• 1 is within the budget

Grants to 2
• 2 is a baseball shoe with rubber cleats, but...

I placed 2 last because:
• These shoes were over budget
JUNIOR/INTERMEDIATE

Class #2 – Digital Cameras

Placing:  1-2-3-4
Cuts:     3-2-4

Reasoning:

I placed this class of digital cameras 1-2-3-4.

In the top pair, I placed 1 over 3 because 1 has the best combination of the features for which Julie is looking. 1 has the highest optical zoom of 9x, 15 scene modes and is well within her budget of $100 coming in at $79.99. In addition, 1 has the largest megapixel resolution at 16 megapixels, image stabilization and the 720p HD movie recording.

I grant that 2 has a slightly bigger LCD screen.

In my middle pair, I placed 2 over 3 because 2 has greater optical zoom of 7x compared to 3's 5x optical zoom.

I grant that the 3 camera has a slightly larger mega pixel resolution, more scene modes, and is $10 less expensive.

In my bottom pair, I placed camera 3 over 4 because has a greater optical zoom and many more scene modes compared to 4. In addition 3 has a higher resolution.

I grant that 4 is the most affordable option in the class.

I placed 4 last because it had the lowest resolution (10 megapixel), least amount of scene modes (4), smallest screen (2.5"), and the least desirable optical zoom (3x).
JUNIOR/INTERMEDIATE

Class #3 – Outdoor Equipment - Stoves

Placing:  3-2-4-1
Cuts:     3-2-4

Reasoning:

In the top pair, I placed 3 over 2 because:
Exactly what is needed, lightweight,
Includes pot & lid, carry bag
Best option for the money

Grants to 2
Grant that 2 may have more conveniences like self-cleaning, but it wasn’t enough to compensate for the higher price

In the middle pair, I placed 2 over 4 because:
2 is a quicker heating method: liquid vs. fire

Grants to 4
Less expensive and lighter weight

In the bottom pair, I placed 4 over 1 because:
4 is less expensive
Lighter weight
More convenient

Grants to 1
Quicker heating method

I placed 1 last because:
Too heavy
Most expensive
JUNIOR/INTERMEDIATE

Class #4 – Outdoor Backpacks - REASONS

Placing: 2-3-1-4
Cuts: 2-3-5

Reasoning:

**In the top pair, I placed 2 over 3 because:**
- It is lightest weight in the class
- Fits waist/hips 30-46 inches
- Has 7 exterior pockets for supplies
- More capacity than 3

Grants to 3
- It is less expensive

**In the middle pair, I placed 3 over 1 because:**
- It is lightweight
- Fits waist up to 42 in.
- Less expensive as 1

Grants to 1
- Has the same number of exterior pockets as 3

**In the bottom pair, I placed 1 over 4 because:**
- Has more gear capacity

Grants to 4
- Has more exterior pockets
- Fits waists up to 45 in.

**I placed 4 last because:**
- It is over budget
JUNIOR/INTERMEDIATE

Class #5 – Nutritious Snacks

Placing: 4-2-3-1
Cuts: 3-3-5

Reasoning:

In the top pair, I placed 4 over 2 because:
- Lowest in Total Fat (5g)
- One of the highest in Protein (13g)
- Lowest in calories (90)

Grants to 2
- Same amount of Protein (13g)
- Had more food groups/variety (protein, grains, dairy, vegetables)

In the middle pair, I placed 2 over 3 because:
- Less total fat (9g)
- More protein (13g)

Grants to 3
- Does not need to keep cool and very portable

In the bottom pair, I placed 3 over 1 because:
- Less fat by over half (10g)
- Less calories than 1 (200 calories)

Grants to 1
- More protein by 1g (3g)

I placed 1 last because:
- Contains most fat (22g)
- Contains most calories (380 calories)
JUNIOR/INTERMEDIATE

Class #6 – Mystery – Cups

Placing: 1-2-4-3
Cuts: 3-4-4

Reasoning:

I started the class with #1 because:
- 1 has double wall insulation
- Is within the budget and $2 less expensive than the item in second place
- Has a lid
- Is made of durable stainless steel
- Holds 30 ounces, which is 6 more ounces than required

Grants to 2
- Grant that 2 is a close second but the extra price and the lack of a lid prevent it from winning the class.

In the middle pair, I placed 2 over 4 because:
- 2 is reusable, durable, and dishwasher safe
- 2 is double wall insulated and holds 30 ounces.

Grants to 4
- Grant that 4 is much less expensive

In the bottom pair, I placed 4 over 3 because:
- Pricing

Grants to 3
- Had a lid and was reusable

I placed 3 last because:
- It was out of the price range and did not meet the minimum ounces required
SENIOR
Class #1 – Athletic Shoes & Active Wear - REASONS
Placing: 3-2-1-4
Cuts: 2-4-3

Reasoning:

In the top pair, I placed 3 over 2 because:
- The shoe was the lightest (7.25 oz)
- The shoe had arch support
- The active wear was reflective
- Both pieces of the set were very brightly colored, making it easy for her to find in her bag and providing extra safety during late night/early morning runs.
- The set was less expensive than the set in second place.

Grants to 2
- 2 also comes close to meeting Amy's needs, but the additional weight of the shoe and the extra $3 cost prevents it from winning the class.

In the middle pair, I placed 2 over 1 because:
- 2 had arch support
- The active wear was reflective
- The shirt for 2 was very brightly colored as well as part of the shoe.
- The pair for 1 was very dark colored.
- The shoe in 2 was lighter in weight.

Grant to 1
- It was less expensive.

In the bottom pair, I placed 1 over 4 because:
- The shoes in 1 weighed less than the shoes in 4.
- It was least expensive in the class.
- The apparel portion had a shirt, and 4 had a jacket & pants.

Grants to 4
- The shoe had arch support.

I placed 4 last because:
- It was a wind suit and not a shirt
- It was the most expensive ($99.97)
- The active wear material did not have wicking properties
- Active wear was not reflective
- Athletic Shoes were the most in weight (9.3oz)
SENIOR
Class #2 – Computers
Placing: 1-2-4-3
Cuts: 2-4-2

Reasoning:

I placed this class of computers 1-2-4-3.

In the top pair, I placed 1 over 2 because in the scenario Jessica is looking for a computer that has a larger screen, plenty of memory and good battery life. 1 has the largest screen size, 8 GB of memory with a battery life of 8.5 hours.

I grant that the 2 computer is lighter in weight and the same battery life but it does not have the screen size and memory desirable for Jessica’s photo editing needs.

In the middle pair, I placed 2 over 4 because 2 has a much bigger screen size and 2 GB more memory as well as a 1 TB hard drive. I criticize it has a little less battery by half a hour and is a little heavier, but 2's screen size and memory, as well as the price, bring it up higher in the class than 4.

In the bottom pair, I placed 4 over 3 because 4 has more memory and it is the lightest computer in the class. While I grant that 3 is the least expensive item in the class, its lack of memory and heavy weight places it easily in the bottom of the class.
SENIOR

Class #3 – Outdoor Equipment – Sleeping Bags & Tents

Placing:  3-4-1-2
Cuts:     2-5-2

Reasoning:

In the top pair, I placed 3 over 4 because:
•  It was a synthetic sleeping bag (no allergies)
•  Best temperature reading (25)
•  Regular size bag
•  Sleeps 8 (needed 6 person so more than adequate)
•  Cabin Tent

Grant to 1
•  Less expensive than 4 ($199.99)

In the middle pair, I placed 4 over 1 because:
•  Regular size bag
•  It was (35) temperature
•  It slept 10 (more than adequate amount of space)
•  Cabin Tent
•  Had 4 seasons (1 only 3 seasons)
Grant to 4
•  It was a synthetic sleeping bag (no allergies) while 1 was a down sleeping bag (allergies)

Criticism to 4
•  It was the most expensive ($229.98)

In the bottom pair, I placed 1 over 2 because:
•  It did sleep 6 (cozy but did fit 6)
•  Cabin Tent
•  Least expensive ($197.98)

Criticism to 1
•  It was a down sleeping bag (allergies)
•  It was one of the highest temperatures (35 degrees) but less than 2

I placed 2 last because:
•  It was a down sleeping bag (allergies)
•  It was long size sleeping bag
•  It did not sleep but 4 people and there were 6
•  It was a dome tent
•  Temperature was the highest (45)
SENIOR

Class #4 – Outdoor Backpacks - REASONS

Placing: 2-3-4-1

Cuts: 1-4-4

Reasoning:

I placed this class of outdoor backpacks 2-3-4-1.

I found this class to break into two easy pairs. The top pair of weekender packs rises easily to the front. I started the class with number 2, the REI Flash 50 pack. This pack is the lightest weight in the class and offers the highest capacity of the weekend style packs that Joe & Veronica need. The Flash 50 pack meets the necessary waist size variations to accommodate both hikers. The 7 extra pockets also provide ample additional space to store items and necessities during their trip.

I grant that 3, the REI Flash 42 pack, is less expensive, however it was simply outmatched in regards to extra space, pockets, and the additional weight, preventing it from being the class winner.

The middle pair is an easy decision as we move from one item, number 3 the REI Flash 42 pack, that is very close to what Joe & Veronica need to a pack that simply put is too much for what they need. While I grant that 4, the Osprey Atmos 65 pack, has plenty of room and the most pockets of the class, the capacity of this pack bumps it into a multi-day pack and significantly increases the overall pack weight. Additionally, there a $70 price difference, making the Osprey pack the less cost-efficient of the pair.

In the bottom pair, 1, the Gregory Denali pack, easily secures the last placing. Although it has the most capacity in the class, it is way more pack than what Joe & Veronica need. It’s also the heaviest pack in the class. More importantly, the pack will not fit Joe’s waist, making it least useful to the pair.
SENIOR

Class #5 – Nutritious Snacks

Placing: 4-2-3-1
Cuts: 4-2-5

Reasoning:

In the top pair, I placed 4 over 2 because:
- Lowest in Total Fat (5g)
- Highest in Protein (15g)
- Drink was water - best drink option for snack

Grants to 2
- Had more food groups/variety (protein, grains, dairy, vegetables)

In the middle pair, I placed 2 over 3 because:
- Less total fat (9g)
- More protein (13g)
- Drink was water - best drink option for snack

Grants to 3
- Does not need to keep cool and very portable

In the bottom pair, I placed 3 over 1 because:
- Less fat by over half (10g)
- Sports drink is better option than coke
- Lessen calories than 1 (350 calories)

Grants to 1
- More protein by 1g (5g)

I placed 1 last because:
- Contains most fat (25g)
- Contains most calories (510 calories)
- Coke is not a good option for a drink at any time
SENIOR
Class #6 – Mystery - Bicycles
Placing: 1-2-4-3
Cuts: 3-3-4

Reasoning:

I placed today’s mystery class of bicycles 1-2-4-3.

Number one, the Dawes lightning 1200 jumps out as the easy favorite. I placed it first because it is within the budget, is a road bike, has 27 speeds, and can be converted into a racing bike in the future, just as Aaron wants.

While I grant that number two, the Fixed Gear Single Speed bike is significantly less expensive, the lack of necessary attributes doesn’t overcome the attractive price tag.

I placed 2 over 4 because 2 is more of a road bike and designed with commuters in mind, whereas 4, the Huffy Men’s Cruiser Deluxe is more of a leisure bike. The structure, frame, and style of the Huffy simply don’t meet Aaron’s needs as well as 2, despite a significant price advantage.

In the bottom pair, I placed 4, the Huffy, over 3, the Mongoose Vinson All-Terrain Fat Tire bike because the Mongoose was out of Aaron’s price range. While I grant that the Mongoose may be more in line with Aaron’s needs because of the 24 speeds, braking capacity, and heavy duty tires, it was simply out of the budget and therefore out of consideration.
