

Wastewater Treatment Facilities Workgroup

Meeting Notes

April 7, 2011

Work Group Members Present

Kim Laird (TCEQ), Charris York (TCWP), Dawn Ryczek (GCHD), Darrell Hartwick (WCID 1), Lisa Marshall (GBF), Susie Blake (League City), Marc Reid (TCWP)

Discussion

The workgroup began with a brief recap of the last meeting. Following the recap, the 9 elements table was projected and discussed in more detail. The workgroup started where they left off during the previous meeting. The following two management measures were discussed:

- Consider regionalization of discharge effluent (WWTFs and OSSFs), especially new.
- Address Fats, Roots, Oils and Grease (FROG)

Action Items

- Marc will start writing about the management measures already discussed.
