## ***Grain Bin Emergencies – Awareness***

***The course provides the student with an understanding of the common hazards that exist during grain bin operations, the actions that reduce or eliminate these hazards, and the initial action that should be taken in the event of an accident at a grain handling facility. The class is designed for a four (4) hour delivery.***

***Saturday June 25<sup>th</sup>, 8:00 a.m. – 5:00 p.m.***

## ***Grain Bin Emergencies – Operations***

***Agriculture operations by nature can be inherently dangerous. Avoiding accidents and surviving one, should it occur, both require training. This 8 hour course is designed to enable you to evaluate hazards, begin initial actions in the event of an incident at a grain handling facility, initiate the appropriate communication to obtain necessary resources, and begin procedures to perform a rescue.***
