

2020 IPM Internships

Texas AgriLife Extension Service and Texas Pest Management Association

Majors Eligible to Participate: IPM, Entomology, Soil and Crop Sciences, Plant Pathology and related agricultural majors.

Student Classification Eligible: College Freshmen, Sophomores, Juniors, Seniors, Graduate Students

Job Responsibilities: Interns have a variety of responsibilities including scouting for pests, providing leadership for other scouts, monitoring plant growth and development, data collection and summarization, assisting with demonstration and research plots. Interns will be expected to write a final report about their internship.

Remuneration: Student is employed by and Extension IPM professional or a local pest management committee. Wages vary but generally are in the \$8.00-\$12.00 per hour range. Some Colleges and Universities will provide course credit for the internship experience. Please check with your advisor regarding the number of credit hours.

Additional funding may be available to pay a training stipend and/or offset housing expenses.

Location of Internship: Port Lavaca. Other locations around the state, including Lubbock, Plainview, Muleshoe, Amarillo, Levelland, Brownfield, Lamesa, Garden City, Commerce, Hillsboro, College Station, Tyler/Overton, Wharton, Corpus Christi, McAllen, San Antonio and Austin.

Length of Internship: This will vary somewhat depending upon location but will roughly begin after the end of the spring semester and end when classes begin in the fall. The internships generally last 10-16 weeks depending upon location.

If interested please send your resume to: Stephen Biles, Extension Agent - IPM, 186 Henry Barber Way, Port Lavaca, TX 77979. For questions call (361) 552-9747 or e-mail biles-sp@tamu.edu application and more information can be found at <http://ipm.tamu.edu> under Internships.

Application for Year 2020 Extension IPM Program Summer Internship

Name: _____
