

My name is Hallie Kellerman and I am the Youth Program Coordinator for [Montana Conservation Corps](#) Helena office. I am sending you this email to see if any of your students would be interested in a leadership opportunity for summer 2019 in the big beautiful state of Montana!

This is a great opportunity to work with middle school and high school aged youth immersed in outdoor environments teaching concrete skills as well as civic engagement and appreciation for the outdoors. The leaders would be in AmeriCorps positions, so it is considered a term of service, but they would receive a living stipend and an education award after completing the season to use towards loans or continuing education. We have worked with programs in the past that have been able to count the term of service as an internship for school credit so there is a perk in that sense as well.

The flyer details a start date in April but we highly encourage anyone who is interested to apply as we may be able to work with them on a later start date.

If students have any other questions about the program or what it would entail please email me or give me a call.

My number is 406.495.9214 ext.311.

Thank you for the opportunity to share our program with you and your students! I appreciate your time, and hope we can work with some of your students this year.

Sincerely,
Hallie
