ATTENTION all parents interested in having their youth participate in the Archery Project!!!

I have fielded many questions about interest in the Archery project and we have worked for a few years to try to get an organized group together and that just has not come to fruition. I would like to host discussion with those interested to see if we can make something happen. Please join us on **September 26th at the Extension Office at 6:30 pm** if you have any interest in seeing an archery project be successful here in Wharton County.
